Vatican Council II: Constitutions, Decrees, Declarations Orbis Books  
Includes entries for maps and atlases.  
Joannis Seldeni jurisconsulti Opera omnia, tam edita quam inedita Orbis Books  
Riguardo le nuove generazioni è ormai di uso comune sostenere che è stato loro rubato il futuro, ma per il combattivo prete da marciapiede di Genova il futuro, ai giovani, pi ù che rubarlo, glielo stanno uccidendo, con il rischio quindi che non sia pi ù possibile restituirglielo prima di almeno due o tre generazioni. Questo

libro mostra un don Gallo diverso dal solito, molto documentato e alle prese con concetti molto concreti quali la strategia della Fiat e del suo manager Sergio Marchionne, il rating, il debito sovrano, le deindustrializzazioni, la finanza, la globalizzazione e i vari indici sociali ed economici degli ultimi 150 anni, cio è in pratica dall'Unit à d'Italia, messi in rete dall'Istat. Sono gli indici che mostrano con chiarezza come qualcosa, in quello che era il Belpaese, si sia rotto a partire dagli anni Ottanta. Giovani, incazzatevi!, ripete pi ù volte don Gallo

nel libro, e con ragione. Nel 2011 hanno fatto sensazione la primavera araba, la rivolta inglese di Tottenham e l'inizio del movimento degli Indignados, sfociato come un fiume anche negli Usa a partire da Wall Street, ancora oggi l'ombelico del mondo della finanza. Quella finanza che ha distrutto l'industria e umiliato il lavoro, sottolinea don Gallo, facendo notare che le potenziali Tottenham non mancano neppure in Italia. Un appello appassionato a indignarci in massa perch é per i nostri giovani ci possa

essere una primavera italiana.  
**Opera graece. Di epimeleios kai analomaton Erriku tu Sabiliu (studio et impensis Henrici Savilii).** Liturgical Press  
 The sixteen official documents—constitutions, decrees, and declarations—of the Second Vatican Council are now available from Liturgical Press in the most popular and widely used inclusive-language edition translated by Irish Dominican Austin Flannery (+October 21,

2008). As the worldwide Church continues to celebrate the fiftieth anniversary of the Council (1962–65), there is a great need in college classrooms and parish faith formation groups—as well as for individuals—to again have access to these documents in contemporary English. As Flannery wrote in his introduction to the 1996 edition, “The translation of the texts of the Vatican documents in the present volume differs from that in the previous publication in two

respects. It has been very considerably revised and, in place, corrected. It is also, to a very large extent, in inclusive language. “I say ‘to a very large extent,’ because we have used inclusive language in passages about men and women but not, however, in passages about God, except where the use of the masculine pronoun was easily avoidable.” Rendiconti Baldini & Castoldi Global 1968 is a unique study of the similarities and differences in the

1968 cultural revolutions in Europe and Latin America. The late 1960s was a time of revolutionary ferment throughout the world. Yet so much was in flux during these years that it is often difficult to make sense of the period. In this volume, distinguished historians, filmmakers, musicologists, literary scholars, and novelists address this challenge by exploring a specific issue—the extent to which the period that we associate with the year 1968 constituted a

cultural revolution. They approach this topic by comparing the different manifestations of this transformational era in Europe and Latin America. The contributors show in vivid detail how new social mores, innovative forms of artistic expression, and cultural, religious, and political resistance were debated and tested on both sides of the Atlantic. In some cases, the desire to confront traditional beliefs and conventions had been percolating under the surface for years. Yet they also

find that the impulse to overturn the status quo was fueled by the interplay of a host of factors that converged at the end of the 1960s and accelerated the transition from one generation to the next. These factors included new thinking about education and work, dramatic changes in the self-presentation of the Roman Catholic Church, government repression in both the Soviet Bloc and Latin America, and universal disillusionment with the United States. The

contributors demonstrate that the short- and long-term effects of the cultural revolution of 1968 varied from country to country, but the period's defining legacy was a lasting shift in values, beliefs, lifestyles, and artistic sensibilities.
