From anxiety about Muslim immigrants in Western Europe to concerns about undocumented workers and cross-border security threats in the United States, disputes over immigration have proliferated and intensified in recent years. These debates are among the most contentious facing constitutional democracies, and they show little

sign of fading away. Edited and with an introduction by political scientist Rogers M. Smith, *Citizenship, Borders, and Human Needs* brings together essays by leading international scholars from a wide range of disciplines to explore the economic, cultural, political, and normative aspects of comparative immigration policies. In the first section, contributors go beyond familiar explanations of immigration's economic effects to explore whose needs are truly

helped and harmed by current migration patterns. The concerns of receiving countries include but are not limited to their economic interests, and several essays weigh different models of managing cultural identity and conflict in democracies with large immigrant populations. Other essays consider the implications of immigration for politics and citizenship. In many nations, large-scale immigration challenges existing political institutions, which must struggle to

foster political inclusion and accommodate changing ways of belonging to the polity. The volume concludes with contrasting reflections on the normative standards that should guide immigration policies in modern constitutional democracies. *Citizenship, Borders, and Human Needs* develops connections between thoughtful scholarship and public policy, thereby advancing public debate on these complex and divisive issues. Though

most attention in the collection is devoted to the dilemmas facing immigrant-receiving countries in the West, the volume also explores policies and outcomes in immigrant-sending countries, as well as the situation of developing nations—such as India—that are net receivers of migrants. *Asia in International Relations* One Point Six Technology Pvt Ltd Contributing to the ongoing debates on

citizenship, this book traces the Citizenship Act of India, 1955 from its inception, through the various amendments in 1986, 2003, and 2005. It includes detailed studies of other significant laws and judgments including the Abducted Persons (Recovery and Rehabilitation) Act (1949), and

Forced Migration: Current Issues and Debates provides a critical engagement with and analysis of contemporary issues in the field using interdisciplinary perspectives, through different geographical case studies and by employing varying methodologies. The combination of authors reviewing both the key research and scholarship and offering insights from their own research ensures a comprehensive and up-to-date analysis of the current issues in forced migration. The book is

structured around three main current themes: the reconfiguration of borders including virtual borders, the expansion of prolonged exile, and changes in protection and access to rights. The first chapters in the collection provide both context and a theoretical overview by situating current debates and issues in their historical context including the evolution of the field and the impact of the colonial and post-colonial world order on forced migration and forced displacement.

These are followed by chapters framed around substantive issues including deportation and forced return; protracted displacements; securitising the Mediterranean and cross-border migration practices; refugees in global cities; forced migrants in the digital age; and second-generation identity and transnational practices. Forced Migration offers an original contribution to a growing field of study, connecting theoretical ideas and empirical research with

policy, practice and the lived experiences of forced migrants. The volume provides a solid foundation, for students, academics and policy makers, of the main questions being asked in contemporary debates in forced migration. Nationality and International Law in Asian Perspective Martinus Nijhoff Publishers This book argues that citizenship debate over NRC and CAA in India is a legacy of partition, and not a crisis of secularism. Citizenship Debate over NRC and

CAA: Assam and the Politics of History investigates Assamese nationality-formation process and analyses the National Register of Citizens (NRC) and the Citizenship Amendment Act (CAA) within their historical context. The book looks into the massive immigration process in the beginning of the century, the reaction of Assamese leaders towards it and the ensuing debates in state legislative councils and assemblies. It raises Assam's pertinent question on land, language and culture as the centrality of the Assamese identity and the evolving

identity politics to show how the state has been negotiating with it while accommodating the interests of other communities. It further explores the role played by the Muslim League and its leaders in Assam. The book deviates largely from the earlier academic discourses on this subject by bringing in and unfolding several political dynamics, debates and questions in the discussion. Forced Migration Taylor & Francis In January 2011, Felani Khatun was shot dead while attempting to cross the border from India to Bangladesh. Her body remained

hung on the fence as a warning to those who illegally crossed an international border. Migration to India from the current geographical and political entity called Bangladesh is more than a century old and had begun long before the nation states were created in South Asia. Often termed as 'foreigners' and 'infiltrators', Bangladeshi migrants such as Felani find their way into India for the promise of a better future. Post 1971, there has been a steady movement of people from Bangladesh into India, both as refugees and for economic need, making this

migration a complex area of inquiry. This book focuses on the contemporary issue of undocumented Bangladeshi migration to the three Indian states of Assam, West Bengal, and Delhi, and how the migrants are perceived in light of the ongoing discourses on the various nationalisms in India. Each state has a unique history and has taken different measures to respond to Bangladeshi migrants present in the state. Based on extensive fieldwork and insightful interviews with influential members from key political parties, civil society organizations, and Hindu and

ethnic nationalist bodies in these states, the book explores the place and role of Bangladeshi migrants in relation to the inherent tension of Indian nationalism. State Politics In Contemporary India Sage Publications Pvt. Limited This is an insightful historical work on borders and bordered existences, with special emphasis on the gender dimensions of these existences. The author argues that the experiences of women living on borders and in borderlands are definitive of those of the vulnerable communities who bear the brunt of the complex border and

security issues. The conditions of migrant women, women peace campaigners, and victims of human trafficking and mobile diseases are presented as markers of bordered existences. Their history is one of negotiations with structures of control, leading to insecurity, subversion, endurance and a different kind of existence. Thus, this book adopts a critical feminist history angle. Borders, Histories, Existences: Gender and Beyond contends that borders are, by definition, lines of inclusion and exclusion established by the state. It

analyses how states construct borders and try to make them static and rigid and how bordered existences, such as women, migrant workers, victims of human trafficking, etc., destabilise the rigid constructs. It explores the political conditions that have made borders problematic in post-colonial South Asia and how these borders have become regions of extreme control or violence. The book contains new research data and original theories and would provide crucial information to those studying colonial and post-colonial history, politics and international

relations, South Asia studies and sociology. Encyclopaedia of Scheduled Tribes in India Taylor & Francis Contributed articles presented at the two seminars on same theme at Delhi in 2001 and in Gauhati in 2003 moderated by Astha Bharati and C-NES. Operation Lebensraum: Illegal Migration from Bangladesh Disha Publications The Partition of India left in its wake far-reaching consequences for the northeastern state of Assam. Appearing to be caught in a time warp, the region

continues to grapple with questions that engaged the public mind more than seven decades ago, before and immediately after the Partition. Alarming, issues such as immigration, demographic change, language, and identity have not only retained their relevance but have also gained an extra edge today. In this volume, the author outlines the present contentious issues confronting the state. Explaining the roots of these disputes and how the challenge posed by Assam held serious consequences for the nation as a whole, this work examines the developments that

occurred in the years preceding Independence and the Partition. These developments have etched their effect on the society, politics, and economy of Assam, along with the entire northeastern region, in an indelible manner. As the volume reveals, the burden of those momentous years still rests heavily on Assam's contemporary political scenario.

politics of Assam; the role of Jamiat; and the divide between Assamese and the neo-Assamese. It explores the history and contemporary politics of the state to show how they shape the new context of Muslim identity in Assam, where previously an Assamese identity often prevailed over religious and linguistic identity. This book will be useful to scholars and researchers of political science, sociology,

political sociology, minority studies, northeast India studies, demography and immigration studies, and development studies. It will interest those concerned with minority politics, communal politics, identity politics, migration, citizenship issues, and South Asian studies.

Lok Sabha Debates
Taylor & Francis
This volume studies the various forms of ethnic autonomy envisioned within and outside the purview of the Sixth Schedule of the Indian Constitution. It explores the role of the British Indian administration and the Constituent

Assembly of India in the introduction and inclusion of the schedule and the special provisions granted under it. Drawing on case studies from the states of Assam, Manipur, Meghalaya, and Sikkim in Northeast India and Darjeeling in North Bengal, it examines whether the practice of granting autonomy has been able to fulfil the political aspirations of the ethnic communities and how far autonomy settles or eases conflict. It also discusses sub-state nationalism and if it can be

accommodated within autonomy, and studies the views of the central government and state governments towards such autonomy. An important contribution towards understanding India ' s federal structure, the volume will be indispensable to students and researchers of politics, democracy, Indian Constitution, law, self-governance, political theory, and South Asian studies.
