In Buildings of Iowa, David Gebhard
and Gerald Mansheim trace Iowa's

architectural history from the earliest Native American influences to the present. Divided into five regional areas--Mississippi River East, Mississippi River West, and the Central, South, and North regions--the book's entries within each area are presented on a town-by-town basis to include the full array of Iowa's architectural offerings in various styles. Whether discussing farm houses, barns, and silos or churches, schools, courthouses, and libraries, the volume shows how a unity of rural and urban is effectively mirrored in Iowa's buildings.

Don't let your jobs be held up by failing code inspections. Smooth sign-off by the inspector is the goal, but to make this ideal happen on your job site, you need to understand the requirements of latest editions of the International Building Code and the International Residential Code. Understanding what the codes require can be a real challenge. This new, completely revised Contractor's Guide to the Building Code cuts through the legalese of the code books.

It explains the important requirements for residential and light commercial structures in plain, simple English so you can get it right the first time. Designer's Best Two-story Home Plans

Southern Homes and Plan Books showcases the architectural legacy and design philosophy of Leila Ross Wilburn (1885-1967), a legacy that includes hundreds of houses in a variety of popular house styles, from bungalows to ranch houses, built using Wilburn's plan books during the first six decades of the twentieth century. Wilburn opened her own firm in Atlanta in 1908 and practiced until her death in 1967. She published nine plan books that offered mail order house designs to contractors, builders, and prospective homeowners and allowed them the ease of choosing a preconceived design and construction plan. Sarah J. Boykin and Susan M. Hunter provide a survey of the southern homes built from Wilburn's plan books, examining Wilburn's architectural legacy and her achievements as a plan book architect. The book provides beautiful photographs of houses built from her plans, along with illustrations from the plan books themselves and other related documents from the time. Readers can thus see how her designs were realized as individual houses and also how they influenced the development of some of the

Atlanta area's beloved historical neighborhoods, most notably Druid Hills, Morningside, Virginia-Highland, and Candler Park, as well as the McDonough-Adams-Kings Highway (MAK) Historic District in Decatur. Today, Wilburn's houses are enjoyed as appealing, historic homes and represent some of the richest examples of southern vernacular architecture to emerge from the plan book tradition.
