### Get Through Radiology for MRCP CRC Press

Following the super-success of their MRCP Part 2 volume, the authors adapt their special teaching skills to the needs of MRCP Part 1 and similar exams in internal medicine. The book consists of 360 'Best of 5' multiple choice questions (1,800 clinical decision) reflecting the latest exam format. It covers all areas of clinical medicine needed by exam candidates and includes psychiatry and applied basic science. The answers contain full didactic explanations to ensure the reader understands each condition or topic, and features lists, tables and tutorials to guide candidates in their revision and exam technique. The book has proved invaluable to young doctors studying for higher exams in internal medicine and to medical tutors preparing post graduate examinations.

Complete Revision Notes for Medical and Surgical Finals, Second Edition Oxford University Press  
Medicine for MRCP provides a comprehensive review of the material that you need to pass the MRCP Parts 1 and 2 written papers. The twenty-seven chapters mapped out to the RCP syllabus, cover all areas from molecular medicine and genetics, through to medical law and ethics. Written by specialist contributors and educational experts, the content is carefully crafted to build your understanding for both papers. Each chapter begins with the basic science required for Part 1, before covering clinical medicine for Part 1, Part 2 and the PACES examinations. To ensure effective revision, material is presented in short sections with bullet lists, tables, and boxes. Over 150 drawings and photos illustrate key principles and clinical topics making them easier to retain. References to evidence-based protocols and directions to further reading allow for deeper understanding. Candidates can review their progress via the 180 end-of chapter self-assessment questions. Drawing on the authors' expertise, Medicine for MRCP is the ideal companion for the MRCP as well as a useful reference guide for practicing medical doctors.

Key points Practical revision aid for trainees preparing for MRCP examinations Treatment protocols inline with current international guidelines Chapters highly illustrated with images and figures, and teaching notes to assist revision Highlights topics frequently encountered in examinations

### Complete Data Interpretation for the MRCP CRC Press

For the MRCP Part 2 exam, candidates need to be able to interpret radiological images of commonly encountered conditions. They also increasingly need to be able to answer other questions about the condition shown in the image, for example treatment and prognosis. This book has been designed to meet that need. It is divided into five sections: chest, abdomen, nervous system, cardiovascular system and musculoskeletal system. Each condition described is illustrated by one or two high quality radiological images and then provides a concise but holistic view of the condition, with all the important aspects of disease that the candidate will be expected to know. This information is supplemented by a short series of example exam questions.

### Essential Revision Notes in Paediatrics for the MRCPCH PasTest Ltd

This book is an invaluable resource with 400 self-assessment cases and data interpretation questions covering all aspects of internal medicine. It has great breadth of coverage, superb illustration, lively presentation, precise answers and detailed discussion.

### Rapid Review of Clinical Medicine for MRCP Part 1 Jaypee Brothers, Medical Publishers Pvt. Limited

Structured by medical and surgical specialties, the contents are organised in a weighted fashion to reflect coverage in undergraduate curricula. With pharmacology and pathology integrated throughout, this second edition covers all the key topics in: Medicine \* Surgery \* Paediatrics \* Obstetrics & Gynaecology \* Psychiatry \* Orthopaedics \* ENT \* Urology \* Ophthalmology \* Oncology \* Public Health. Effective use is made of student-friendly codes and bullet points for easy information retrieval, and popular features including textboxes, summary tables and clear and reproducible line diagrams have been retained and improved. Fully revised and updated with the latest medical information, and including new illustrations, Complete Revision Notes for Medical and Surgical Finals continues to provide an accessible and stimulating route to exam success. If you know what is in this book then you will know enough to pass your finals.

### MRCP Radcliffe Publishing

Finding the time to revise effectively is one of the greatest challenges that modern MRCP candidates face. This unique book by a recent successful candidate provides precisely what many have needed but been unable to find until now: the distilled essential knowledge required to pass the MRCP Part 2 exam. This book provides candidates with a concise and well-directed approach to fast and efficient revision, supplying comprehensive coverage of the MRCP syllabus and the key points of each topic. It stands apart from other MRCP revision resources in supplying both concise text and the essential lists needed to pass the Part 2 exam.

### MRCS A Essential Revision Notes CRC Press

This is the only book that MCEM candidates will need to pass the MCEM Part B exam. This revision guide is framed around the most recent CEM syllabus, focusing on all the components of the exam. Each section of the book is tailored to match different elements of the syllabus, allowing candidates to revise efficiently and comprehensively. This concise revision tool is completely up-to-date, reflecting the latest developments in the examination. High quality artwork and a bullet-point style help candidates to absorb information quickly. It also includes over 35 short answer questions enabling candidates to gain invaluable exam practice. Exam tips are included throughout the book to help candidates improve their exam technique.

### MRCP Part 2 Examination OUP Oxford

Offers a range of sample comparative journal extracts enabling Foundation Year doctors and MRCP and MRCPsych candidates to practise their critical appraisal skills. This title includes extracts that cover the whole spectrum of critical appraisal, together with exercises for the reader to work through independently to improve their technique.

### Rapid Review of Clinical Medicine for MRCP Part 2, Second Edition Lippincott Williams & Wilkins

This title provides comprehensive lists of notes organized by system, covering all the major areas needed for the MRCP examination. Self-assessment exercises are also provided.

### An Aid to the MRCP PACES John Wiley & Sons

A revision book intended primarily for candidates sitting their MRCP Part 1 examination and which covers all the essential basic sciences. It focuses on the recurring themes which come up in the questions. The book also includes a chapter on clinical pharmacology (which alone accounts for up to 30% of the questions), looking at aspects of drug-induced disease and drug interactions. Finally there is a chapter on statistics and epidemiology which is rarely covered in other texts, but is often included in the exam. Despite the changes to the teaching of the undergraduate in medicine and the integration of the basic sciences with clinical education, the junior doctor, faced with postgraduate examinations, is always going to be poorly prepared for those increasingly important subjects. This book presents the essential information in the form of lists, tables, diagrams and flow charts.

### Revision Notes for MRCP 2 PACES Pastest

A book of over 150 cases which mimic the style and approach of the MRCP PACES exam. The book will equip the candidate attempting to pass the MRCP examination, and will also provide an overview of evidence-based medicine for competency-based training.
